

CRAWFORD COUNTY BANK CORNER NOTES

August, 2007

A special newsletter for customers of Crawford County Bank

Saving just for kids

In our continuing effort to teach children how to save we are offering a free Backpack when you open up your child's first Savings Account with the Crawford County Trust & Savings Bank.

Come in a visit with Lana, Sue or Jackie and they will help you prepare for your first day of school. You must be under the age of 18 and a minimum deposit of \$25.00 is required to open up the account. (* see note below)

Following are some ways you can help teach your kids about money. These and other great tips – from preschool age to teenagers – can be found at the website choosetosave.org.

Allowances: Talk to your child and encourage them to identify ways for them to earn money through work (e.g., put away their toys, make their bed, etc.) – help them make a list and keep a chart of all the chores they complete. The lesson is that money does not grow on trees – money is earned through hard work.

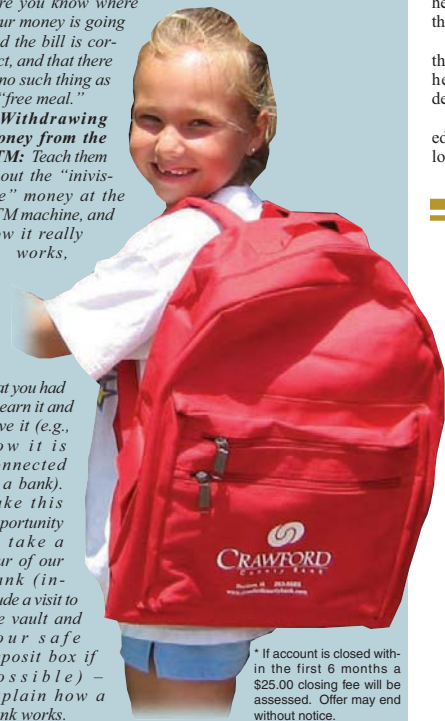

Shopping: Make a grocery list and get kids to cut and organize coupons with you – then go to the store, and have them match the coupons with the items on the shelves – talk to them about a “brand” item vs. generic – as a reward, give them some or all of the money saved from using coupons. Teach them about the importance of comparison shopping and waiting for items to go on sale. Teach them about the importance of wants (e.g., chocolate chips cookies and latest “fun” cereal) vs. needs (food staple products like milk, eggs, bread, etc.)

Celebrate saving: Discuss with your kids an appropriate and safe place to keep their money (e.g., piggy bank, plastic container, wallet, etc.). Put a picture of the item for which they are saving on the “bank” to reinforce visually. Track the child's progress with a colorful chart that can be posted on the refrigerator or bedroom door as a reminder of the child's achievement. Give them recognition for their discipline when the savings goal is reached – consider matching the amount if the goal is achieved within a certain time limit.

Going out to eat: Compare menu items and prices (e.g., ordering water vs. soft drink). Show them the bill at the end of the meal, talk about tips and taxes. The lesson is about double-checking to make sure you know where your money is going and the bill is correct, and that there is no such thing as a “free meal.”

Withdrawing money from the ATM: Teach them about the “invisible” money at the ATM machine, and how it really works,

that you had to earn it and save it (e.g., how it is connected to a bank). Take this opportunity to take a tour of our bank (include a visit to the vault and your safe deposit box if possible) – explain how a bank works.

* If account is closed within the first 6 months a \$25.00 closing fee will be assessed. Offer may end without notice.

Get a great rate with the Monarch CD

Football season is fast approaching, and you can get a greater rate on your Monarch CD with each Monarch win!

For a minimum investment of \$1,000 in a Monarch CD, you will get a minimum rate (call us), which has the ability to grow as our Monarch football team wins its games.

Here's how it works:

With each Denison-Schleswig Monarch varsity football victory, the CD rate will increase on basis point for every point of victory.

For example, if the Monarchs win a game with a score of 40 to 10 (Monarchs 40-Opponent 10), the victory margin would be 30 points.

The CD would then increase from 4.25% to 4.55% APY. Rate increases are cumulative through the season, and a maximum APY applies.

The variable rate CD matures in 6 months.

It will automatically renew at 6 month rate. Interest can be paid or compounded at maturity.

There is a substantial penalty for early withdrawal.

This special offer may end without notice.

The 2007 Monarch football schedule includes the following teams.

August 31 at Harlan
September: Lewis Central
September 14: at Storm Lake
September 21: Sergeant Bluff-Luton
September 28: Spirit Lake
October 5: at Bishop Heelan
October 12: Spencer
October 19: at LeMars
October 26: at MOC-Floyd Valley
Cheer on Coach Dave Wiebers and the Monarchs this year!

Molina a great member of the CC Bank team

Adriana joined the team at Crawford County Bank on January 2, 2004 as a teller.

Since that time she has helped in about every area of the bank.

You may have seen her in the customer service area or helping out in the lending department.

When an interpreter is needed for new accounts or taking loan applications, Adriana is

invaluable.

Her quick smile and pleasant personality makes her a great fit with everyone she meets.

As you might have guessed, she speaks fluent English and Spanish.

This is only natural since she was born in Mexico and came to Denison with her parents in 1996.

She was also one of the very

first Hispanic students to attend Denison High School.

In 1999 she married Lorenzo Gonzalez and together they have two children: Kevin, who is 7 and Jonathan, who is 4. Rumor has it that the pitter patter of ity-bity feet will be arriving at her house, coming in January.

Her hobbies include reading, walking, and spending time with her family.

+Complete details, including restrictions, limitations and exclusions, will be available when you become a Cardmember.

Imaging statements are here!

Here are some helpful hints to make your images clearer. Use a medium point blue or black pen when you write your checks. Gel pens or colored ink will result in a blank image.

The scanner "looks" for numbers, a dash such as \$400—will read as \$4.00 rather than \$400.00. A slash, such as \$10/71 will read as \$101.71.

So when writing out your numbers, remember use complete numbers no dashes or slashes and your image will be clearer.

You will notice small boxes for the amount on your deposit slips. These are called CAR boxes, write your numbers within the boxes this helps the scanner read the number clearer.

When writing your numbers the following guide will help make it clearer for the scanner to read: 1 2 3 4 5 6 7 8 9 0.

The best hint of all is to use your pre-encoded deposit slips that are included on the back of your checks.

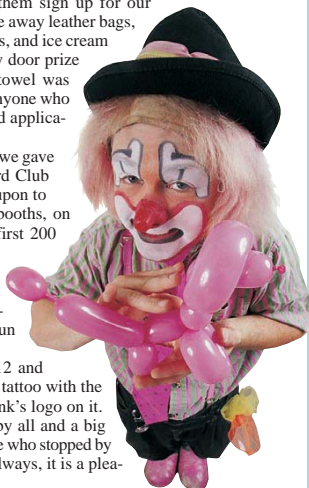

And always remember we are here to help make your banking much easier.

A "fairly" good fair

Once again the Crawford County Bank did its best to support our local fair. The employees of the bank kept busy visiting with people and helping them sign up for our many prizes. We gave away leather bags, cooler totes, shredders, and ice cream machines in our daily door prize drawings. A beach towel was also given away for anyone who filled out a credit card application.

On Thursday night we gave the first 200 Crawford Club Members a \$1.00 coupon to use at the fair food booths, on Friday we gave the first 200 customers to show us their Crawford County Bank debit card a free calculator and Saturday night we had fun with the kids.

Any and all kids 12 and under received a free tattoo with the Crawford County Bank's logo on it. A fun time was had by all and a big Thank you to everyone who stopped by to visit with us. As always, it is a pleasure.

Changing the way we serve you

Waiters, waitresses, bank tellers and Tip-worthy service

by Terry Prickett, President
So what do these have in common?
More than you think.
Before work one morning, our officers treated all our bank employees to breakfast in the boardroom.
Each officer met each employee as they came in, introduced

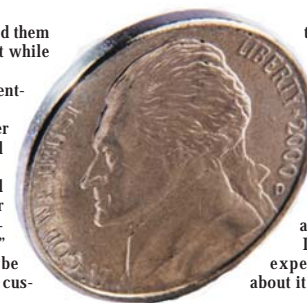

themselves by name as their waiter or waitress, showed them to their chair, and proceeded to serve them breakfast while waiting on them hand and foot.

Like most waiters and waitresses know, a big percentage of their salary is based on tips.

Those tips are usually based on how well the customer is treated and the interaction between the server and the customer.

The point to all this, as well as the challenge to all bank staff was, "How much would you earn if your salary was based on tips? Are you giving a level of service that would even dictate consideration for a tip?"

Just so no one misunderstands, our tellers will not be asking for or expecting tips. We like to deal with our cus-

tomers with personal service and a dedication to their financial needs.

Our challenge and commitment to you, our customer, is to give "tip worthy service".

So if someone at the bank goes above and beyond I would love to hear about it.

If you have a "not so good experience" I NEED to hear about it. We need your "tip" too.

Tip Worth Service: Our Challenge, Our Goal, Our Commitment

On-line banking saves you time

Since additional security features were added to 24Hour Banker Online last December, the new log-in process has resulted in many questions. While adding a few steps to the login process, we have improved the level of protection for you through multi-factor authentication. If you are having difficulties logging on, here are a few recommendations that our staff has been giving to online banking customers who call:

"When I try to log on, it says I need to answer security questions I don't remember ever answering. What do I do?"

All existing online banking customers have answered security questions at some point in the past. Often the customers who have been longtime users answered them so long ago that they don't remember doing so. If you run into this issue, here are a few things that may help you work through it.

1) Your User ID may have been entered incorrectly. If your User ID is incorrect, you will be asked security questions, but you still won't be able to log on.

2) You might be providing correct answers to the questions, but may not be typing them in exactly as you answered them initially.

For example, you might see the question below:

What is the name of the last school you attended?

Answer: Drake

In this example, if you type in "Drake University" when attempting to log on, the system will not recognize it, because the system is looking for "Drake" as the correct answer.

The system is designed to be very exact for your online protection. The last question in this article will illustrate how you can view your answers to the security questions at any time.

3) The individual who initial-

ly enrolled in 24 Hour Banker Online answered the security questions. As an example, if your spouse was the one who enrolled, then the questions may pertain specifically to them. Ideally, each individual needs to enroll under their own profile with their own unique User ID and Password.

"I can log on at home with just a User ID and Password, but when I try to at work, I get the security questions. Why?"

After supplying a correct User ID & Password, 24 Hour Banker Online will attempt to recognize your computer using a "cookie". Once it does, you will receive your personal message and you are safe to enter your password.

Many people using 24 Hour Banker log on from various computers. For example, a successful log on from your home computer will generate a "cookie" that tells 24 Hour Banker that you logged on from the home computer. The next day, you might attempt to log on from your work computer.

When you enter your User ID, 24 Hour Banker will look for the "cookie" from the night before, but will not find it because you are using a different computer.

This triggers the system to ask for answers to the security questions mentioned above; and again, you must answer these exactly as they are stored in 24 Hour Banker for your information security.

"Can I change my security questions or personal message?"

Yes! Once you are logged in successfully, click on the "Account Security Tab" at the top of the page.

From there locate the "Update Information" column and select, "Update my Security Information." Your current security questions and answers will be displayed there.

Make any desired changes, and then click on "Update".

Whether or not you choose to make any changes, be sure to make note of exactly how you entered answers to the security questions for future reference. All CCTSB customers with a computer have the ability to access their accounts online. If you have questions or concerns about online banking, please call CCTSB at 263-5685 and we'll work with you to get you up-and running.

At Crawford County Bank, securing your personal information is at the top of our ebanking priority list.

Save for your future with an IRA especially designed for you

An IRA -- Individual Retirement Account -- is one way to start investing for your future.

Consumers have two types of IRA's to choose from, the traditional IRA and the Roth IRA.

Traditional IRA

The traditional IRA is an account that allows you to defer taxes on the earnings on your contributions until they are withdrawn. Also, certain contributions are tax deductible in the tax year for which they are made.

For a traditional IRA deductibility of your contribution is based on whether or not you are an active participant in any employer-sponsored retirement plan.

Required minimum distributions in a traditional IRA must start by an IRA owners required date (RBD), April 1 of the calendar year following the year in which he/she reaches age 70 1/2.

An IRA owner, after the first distribution year must satisfy his/her required minimum distribution no later than December 31 each year.

Roth IRA

The Roth IRA allows only nondeductible contributions and features tax-free withdrawals for certain distribution reasons after a five-year holding period.

Since Roth IRA contributions are nondeductible and taxed in the year they are earned, if you expect to be in a higher tax bracket when you retire, you may benefit more from a Roth IRA than from a traditional IRA.

For a Roth IRA there are no deductions and all money is taxed.

You are not required to take distributions from your Roth IRA.

Contributions

Tax deductible contribution limits are the same for both types of IRA's. See the chart at the bottom of this page to see how much you can contribute to your IRA.

For more information, see any of our IRA representatives. They can explain the nature of these accounts in more detail and help you complete the forms necessary to establish your Traditional and/or Roth IRA.

Spotlight on Donations

Involvement in our educational system benefits all of us. That's why we want to provide funds for various projects and programs throughout the community. Scholarship donations are given to the Donna Reed Performing Arts and the Future Farmers of America. Periodicals are sponsored at Norelly Community Library as well as co-sponsoring programs like "English without Barriers". Other donations include "After Prom" items or mon-

etary donations given to Denison, Charter Oak-Ute and AR-WE-VA schools. Support is also given for fundraisers by the Monarch Booster Club, Denison Middle School magazine sales, and Monarch Cards. These are just a few of the areas within education that we gladly support for the well being of our children and the community we live in. In addition to monetary donations, many staff members volunteer for speaking requests. In 2007 we read

to five different classes during the "Read Across America/Dr. Seuss' Birthday" time. We also joined with other businesses in Denison by partnering up with a class in elementary school. We had the privilege of adopting and spending time with Mr. Scott Meyer's 5th grade class. A few at the bank learned the "Purple Hands Pledge" from these students, and they were able to learn a little about banking and some of the skills needed to be successful in this career.

Crawford Club News

Dear Crawford Club Members,

We are **EXCITED!** Our first issue of the newsletter was outstanding. We are hoping you found our new format both educational and informative. If there any subjects you would like us to address, just let me know and maybe we can include them in a future newsletter.
